**Table 2.1**

Particulars	Amount admitted in Tariff Order	Amount claimed	In Rs Lakh
			Amount Admitted
Employee cost	55.97	58.70	58.70

**2.3. Operation and Maintenance Expenses:**

2.3.1. While determining the admissible O&M expense for the 400 kV HEL Transmission Line in the Tariff Order for 2017 – 18, the Commission after detailed analysis had admitted Rs. 128.01 Lakh as Repair and Maintenance Expenses including consumables and Rs. 115.37 Lakh as Administrative and General Expenses. The equity contribution is 27.79% of the approved project cost and is within the limit of 30% specified in the Tariff Regulations. Thus, the return on equity claimed of Rs. 2327.60 Lakh on the value of Rs 15017 lakhs has been admitted.

## 2.5. Financing Charges:

## 2.5.1. Interest on Borrowed Capital:

- 2.5.1.1. HEL has claimed an amount of Rs 3956.10 Lakh as interest on borrowed capital. HEL has submitted the amount of interest actually paid in the prescribed Form C of Annexure-

I of the APR petition. HEL has also furnished an auditor's certificate for interest cost with details of interest incurred in capital and revenue account. Interest on capital borrowings needs to be allowed after prudence check of loan details furnished in Form – C. vis-à-vis the requirement of loan based on the approve project cost.

2.5.1.2. The APR application was based on a project cost of Rs. 59480 Lakh whereas the project cost approved by the Commission was Rs. 54036 Lakh. Accordingly, the admissible debt based on approved project cost after adjusting the admissible equity amount comes to Rs 39019 lakhs (Rs 54036 lakhs – Rs 15017 lakhs of Equity Base). For the purpose of computing interest payable during the year, the Commission decides to consider proportionate repayment at the ratio of admissible and actual loan amount and applying the interest rate as per the actual rate of interest availed by HEL.

2.5.1.3. Thus, the Commission admits the Interest on Borrowed Capital as Rs. 3471.71 Lakh as per the table given below:

#### 2.5.2. Other Financing Charges:

2.5.2.1. HEL has claimed an amount of Rs. 94.80 Lakh as Other Finance Charges which consists of charges for Guarantee Commission, Front End Fees, Bank Charges and L/C Opening Charges. HEL has submitted that the Finance Charges are claimed in terms of regulation

5.6.4 (iv) of the Tariff Regulations which inter-alia states that all financing charges relating to loan capital is allowable.

2.5.2.2. From the notes of Form 1.17 (c), it is observed that the Guarantee Commission amounting to Rs. 11.00 Lakh is related to issue and/ or renewal of bank guarantees to various authorities for day-to-day operations of the Company. Further, Bank Charges of Rs. 4.90 Lakh and LC Opening Charges of Rs. 0.9 Lakh is related to day-to-day banking activities. The Commission observes that such charges of day-to-day activities are not under the ambit of regulation 5.6.4 (iv) of the Tariff Regulations and is considered under the Administrative and General Expenses. Accordingly, the Commission admits Rs. 78.00 Lakh related to Front End Fees as Other Finance Charges.

**2.5.3. Interest on Temporary Accommodation:**

2.5.3.1. HEL has submitted that in terms of the Tariff Order dated 29.01.2016 in Case No. TP – 63/ 14 – 15, the tariff determined for 2016 – 17 has been continued for 2017 – 18 also and HEL has realized the tariff determined for 2016 – 17. Further, effects of unrealized entitlement since 2014 – 15 has also been accrued. In view of the above, HEL has claimed an amount of Rs. 266.90 Lakh as Interest on Temporary Accommodation in terms of regulation 5.6.5.4 of the Tariff Regulations.

2.5.3.2. HEL has also submitted the computations in prescribed Form C of Annexure-I of the APR petition for the amounts of interest actually incurred. It is observed that the actual interest incurred is nil. Thus, for interest on temporary accommodation, the interest has been limited to actual interest incurred. Thus, no temporary accommodation is admitted.

**2.5.4. Interest on Working Capital:**

2.5.4.1. On the basis regulation 5.6.5.1 and 5.6.5.2 of the Tariff Regulations read with Suo Motu Order dated 06.04.2022 in Case No. SM – 30/ 21 – 22, the Commission has allowed interest on working capital in the Tariff Order for the year 2017 – 18. Further, the Commission vide paragraph 7 of the order dated 06.04.2022 has stated that “The interest

on working capital which has already been determined for the period effective on and from 01.04.2016 in the tariff orders issued by the Commission considering the SBI PLR/MCLR without any float will be trued up based on actual working capital interest paid, subject to the ceiling of the interest on working capital assessed on normative basis at the rate of one-year MCLR of SBI, as on 1<sup>st</sup> April of the concerned year, plus 350 basis points.” The one-year Marginal Cost of Lending Rates (MCLR of the State Bank of India as on 1st April, 2017 was 8.00%. The Commission thus has considered normative Interest on working capital at the rate of 11.50 % (8.00 % + 3.50 %) for interest calculation. Now, in terms of regulation 5.6.5.1 of the Tariff Regulations, the Commission proceeds to determine the normative amount of interest on working capital as in Table below:

Table 2.4

F	Interest on Working Capital on D (E % on D)	107.85
G	Actual interest paid	168.30
H	Interest on Working Capital admitted (Minimum of F & G)	107.85

2.5.4.2. The Commission admits Rs. 107.85 Lakh as Interest on Working Capital.

## 2.6. Depreciation:

2.6.1. The amount of depreciation as claimed by HEL is Rs. 1538.60 Lakh as provided in Form B of Annex I. Further details with respect to reconciliation with Annual Accounts have been furnished in Auditors' certificate at Attachment 6 of the petition where it has been

mentioned specifically that depreciation has been calculated as per Schedule A in Annexure A of Tariff Regulations of WBERC. The Commission decides to go by the amounts of depreciation as claimed after incorporating appropriate reduction on account of reduced project cost. The APR application was based on a project cost of Rs. 59480 Lakh. However, the project cost approved by the Commission was Rs. 54036 Lakh.

2.6.2. In view of the above, the admitted depreciation is Rs. 1397.78 Lakh as computed below:

Table 2.5

Sl No.	Particulars	In Rs Lakh
		Rs Lakh
1	Depreciation of Evacuation assets	1538.60
2	Project cost approved in order dated 08.01.2020	54036
3	Fixed assets as submitted in form 1.18	59480
4	Depreciation admitted (1/3*2)	1397.78

## 2.7. Advance against Depreciation/ Interest Credit:

2.7.1. In terms of the Tariff Regulations, depreciation is primarily used for repayment of capital loan. Where, the amount of depreciation falls short of amount of loan repayment such shortfall is allowed under Advance against Depreciation (AAD) limited to 1/10 of original amount of allowable loan. Similarly, when amount of loan repayment in a year is more than allowed depreciation, an interest credit at the rate of weighted average cost of debt for the corresponding year needs to be adjusted on such excess depreciation charged. Further, in terms of the Tariff Regulations, it is required to be ensured that the depreciation allowed should not go beyond 90% of the original cost of Asset and after repayment of entire loan the resulting depreciable amount shall be spread over the balance useful life of the fixed asset.

2.7.2. Accordingly, the Commission decides to compute the Advance Against Depreciation/ interest credit for the year 2017 – 18 considering the cumulative amount of depreciation and Advance Against Depreciation allowed in previous APR orders. Considering the fact that, HEL started its operation from January, 2015, the cumulative position unto 2016-17 is analyzed below:

Table 2.6

In Rs Lakh

YEARS	Admitted amount of Loan Repayment	Depreciation Admitted	Advance Against Depreciation	Excess Depreciation over loan repayment
2014 – 15	-	241.20	0.00	241.20
2015 – 16	813.10	1397.80	0.00	584.70
2016 – 17	1867.20	1397.80	0.00	-469.40
TOTAL	2680.30	3036.80	0.00	356.50

- 2.7.3. Cumulative depreciation and AAD admitted during the APR order of 2014 – 15, 2015 – 16 and 2016 – 17 comes to Rs. 3036.80 Lakh against the cumulative loan repayment required during the said period amounting to Rs. 2680.30 Lakh. Thus, there is an excess depreciation over the loan repayment amounting to Rs. 356.50 lakh upto 31.03.2017. This amount is required to be considered while computing the Advance Against Depreciation (AAD)/ interest credit for the year 2017 – 18 as below:

Table 2.7

A	Allowable repayment of loan during the year 2017-18	1606.02

H	Excess of Depreciation & AAD for 2017-18 (F – C )	148.26
I	interest rate	9.77%
J	<b>Interest credit (H x I)</b>	14.49

- 2.7.4. The Commission admits Rs. 14.49 Lakh as Interest Credit during 2017 – 18.

## 2.8. Income Tax:

- 2.8.1. HEL has claimed an amount of Rs. 1209.60 Lakh as Income Tax actually paid during the year. The Commission admits the amount of Rs. 1209.60 Lakh as Income Tax paid during 2017 – 18.

**2.9. Reserve for unforeseen exigencies:**

- 2.9.1. HEL has claimed an amount of Rs. 146.60 Lakh as appropriation to reserve for unforeseen exigencies in terms of regulation 5.11 of the Tariff Regulations. HEL submitted that they will invest the amount in permitted securities in terms of the Tariff Regulations, if the Commission allows the same.
- 2.9.2. The Commission observes that no amount has been approved in the Tariff Order for 2017 – 18. Accordingly, the Commission does not admit any amount under the head reserve for unforeseen exigencies.

**2.10. Permitted Incentive:**

- 2.10.1. HEL has claimed incentive of Rs. 23 Lakh. HEL has submitted a certificate from SLDC for availability of the dedicated transmission line. Para 8 Schedule -10 of the Tariff Regulation provides for incentives for improved performance in case actual availability exceeds 99.75%. Actual availability achieved during 2017 – 18 by HEL evacuation system, as certified by SLDC, stands at 99.96%. The Commission decides to make appropriate adjustments on annual transmission charges and allow the following after prudence check:

**Table 2.8**

- 2.11. The details of Fixed Cost is provided in Annexure-2A.

**CHAPTER – 3****AMOUNT ADJUSTABLE ON ANNUAL PERFORMANCE REVIEW**

- 3.1 Based on the foregoing analyses, the amounts of fixed charges allowable under different heads in respect of the concerned evacuation line have been shown in Annexure-2A. The total amount of fixed charge is Rs. 9043.27 Lakh.
- 3.2 **Fixed charge admitted:**
- 3.2.1 In addition to the fixed costs, HEL has claimed an additional amount of Rs. 218 Lakh for availability achieved over the norms during the year 2017 – 18 following the regulation 6.16.3 of the Tariff Regulations. The Commission notes that, clause (i) of regulation 6.16.3 specifies recovery of transmission charge based on availability formula and at the same time clause (iii) of the regulation clarifies that any amount of transmission charge recovered in excess of annual fixed cost shall be adjusted with the ARR of the next ensuing year. Thus, regulation 6.16.3 does not specifies for any additional cost rather specify the process of recovery and adjustment of any over recovery. Hence, the claim of HEL is not justified.
- 3.2.2 Thus, the revenue recoverable including the incentive is as per following table:

**Table 3.1****In Rs Lakh**

SL. No.	Particulars	Claimed	Admitted
1	Net Fixed Charge	10,900.20	9,043.27
2	Add: Incentive	23.00	19.04
3	Add: Adjustment of Transmission Charge in terms of regulation 6.16.3 of the Tariff Regulations	218.00	-
4	Revenue Recoverable	11,141.20	9,062.31

- 3.3 The re-determined amount of fixed charges of HEL for the year 2016-17 comes to Rs. 9062.31 lakh which is considered as realizable revenue from operation of HEL for 2017 – 18.

- 3.4 From the audited account it is observed that, HEL had recovered Rs. 11401.00 Lakh as transmission charge during the year 2017-18. The Commission issued the Tariff Order for 2017-18 on 20.04.2022 determining ARR of Rs. 8994.68 lakh and in the said order directed HEL to adjust the over recovery, if any, with twelve equal monthly installments. HEL in its supplementary petition dated 04.07.2022 in Form E(T) has considered Rs. 8994.68 Lakh as revenue recovered in terms of the Tariff Order dated 20.04.2022.
- 3.5 The Commission vide letter dated 25.05.2023 directed HEL to confirm the details of amount adjusted, if any, in terms of the Tariff Order dated 20.04.2022. HEL vide letter dated 30.05.2023 has stated that no amount has been adjusted in terms of the order dated 20.04.2022.
- 3.6 As clearly evident, HEL has availed the sum of Rs. 2406.32 Lakh (Rs. 11401.00 – 8994.68 Lakh) meant for refund to the beneficiary, held at its disposal in the operation of its business along with corresponding benefits till date. Accordingly, the Commission deems it fit to consider the corresponding interest accruable on the sum meant for refund to beneficiary as held by HEL till date at the rate specified by the Commission for working capital computation which is SBI MCLR + 350 basis points. Such rate comes to 10.50 % (SBI MCLR as on 01.04.2022 i.e., 7.00% + 3.50%).
- 3.7 The Commission observes that the refund scheduled to be paid by HEL vide Tariff Order dated 20.04.2022 to its beneficiary has not reach to the end of the beneficiary. Accordingly, the Commission decides to consider the interest on such refundable amount as elaborated in paragraph 3.6 above during 01.05.2022 to 31.05.2023, to be passed on to the beneficiary. Such amount comes to Rs. 273.72 Lakh. [=2406.32 x 10.50% x 13/12]
